Trilon B Powder

Chemical Nature:

Trilon B Powder is the tetrasodium salt of ethylenediaminetetraacetic acid (Na₄EDTA). This economical form of EDTA is recommended for industrial applications where small amounts of Na₃N₃TA can be tolerated.

Typical properties:

Concentration (%)	approx. 87
pH (1% in water)	approx. 11
Bulk Density (g/L)	approx. 665

Applications:

Trilon B Powder can remove calcium oxalate, calcium sulfate, calcium carbonate, barium sulfate, and other type scales from process equipment, and also improves detergency of surfactants in chemical or I&I cleaning. In metal finishing, textiles and pulp/paper, it also protects fluorescent whitening agents from metal catalyzed oxidation and degradation, and dyes from color change.

Storage:

Containers should be stored tightly sealed in a dry, ventilated place. 25 kg/ bag.

Shelf Life:

2 years.
